Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant argues that the cited prior arts fails to teach "a deskew card to prepare deskew information according to test pattern and independent of the lane cards according to the physical layer communications standard"as in claim 1, and "a deskew card to prepare outgoing deskew information for outgoing data independent of the lane cards according to the test pattern and according to the physical layer communications standard, and to evaluate incoming deskew information included with received incoming data independent of the lane cards according to the physical layer communications standard"as in claim 8. Examiner explains Collins et al. and Kim et al. read on claims 1 and 8. Examiner suggest the limitations in an amendment of claims 1 and 8 that would overcome the current rejection.
